CONTENTS

Contributed Papers **Page**

Productivity and cost performance of lettuce production in a plant factory using various light-emitting-diodes of different spectra
Suthisak Saengtharatip, Na Lu, Michiko Takagaki and Masao Kikuchi…….. 1

Long-term trends of air temperature and the possible impacts on agriculture in Thailand
Boxuan Yang and Eiji Nawata…….. *10*

Agricultural waste after cultivation of *Pleurotus ostreatus* as a potential biomass resource for ethanol production
Kamonchanok Tummo, Anon Thammasittirong, Sutticha Na-Ranong Thammasittirong…….. 19

Cultivation of *Arthrospira platensis* using discharge water from Thai shrimp farm for algal production and wastewater treatment
Koraphat Phengrit and Siriluck Iamtham…….. 27

Farmers' adoption of improved rice varieties in Cambodia
Raju Ghimire and Murari Suvedi…….. 41

Plant regeneration of sugarcane *(Saccharum officinarum L.)* calli *in vitro* and its response to gamma irradiation
Dwi Hapsoro, Titik Inayah and Yusnita…….. 58

Isolation and characterization of rhizobacteria for biological control of root-knot nematodes in Indonesia
Irda Safni, Lisnawita, Khairunnisa Lubis, Ahmad R. Tantawi and Surya Murthi…….. 67

Species richness and abundance of spiders inhabiting rice in fresh swamps and tidal lowlands in south Sumatra, Indonesia
Siti Herlinda, Sandi Yudha, Rosdah Thalib, Khodijah, Suwandi, Benyamin Lakitan and Marieska Verawaty…… 82

Consumers' purchase intention towards genetically modified soybean products in Malaysia
Kelly Wong Kai Seng, Welson Chin Vui Son, Phuah Kit Teng, Juwaidah Sharifuddin, and Fazlin Ali…….. 94

Intra–specific genetic diversity in water yam (*Dioscorea alata* L.) accessions collected from Myanmar, Papua New Guinea and Japan
Favour Olu-Olusegun, Pachakkil Babil, Hidehiko Kikuno, Kenji Irie, Hidekazu Toyohara, and Hironobu Shiwachi…… 107

Decreasing phosphorous sorption using fishpond sediment and goat manure in acid upland soil
Arief Hartono, Syaiful Anwar, Avilia Triani Putri and Kenji Yokota…….... 118

Isolation, characterization, and identification of probiotic lactic acid bacterium from Sabeng, a Philippine fermented drink
Richard R. Navarro, Kendrick Mico L. Faronilo, and Sung-Hwan Eom and Ki-Hong Jeon.. 127

Contributed Papers **Page**

Optimization and validation of a differential pulse anodic stripping voltammetric (dpasv) method for trace analysis of inorganic arsenic in contaminated water
Maritess L. Magalona, Milagros M. Peralta, Marivic S. Lacsamana, Veronica C. Sabularse, and Constancio C. de Guzman…….. *137*

Effects of sugar types in semen extender on sperm quality and longevity of frozen goat semen
Sukanya Rattanatabtimtong, Phubet Satsook, Srisuwan Chomchai, and Visid Tongteang….. *152*

Invited Paper

Livestock reproductive biotechnologies: role in land preservation and green agriculture
Danilda Hufana-Duran…….. 162

Report from the ISSAAS Secretariat…… 171

Members, Editorial Committee..... 175
